Caring Campus Initiative Conclusion

Caring Campus is a framework, established by the Institute for Evidence-Based Change, that the classified professional staff have been part of since August 2020. They have met 5 times to establish commitments our campus can adopt to show our students we are committed to their success. **Last Friday** the Classified staff concluded **meeting 5** with a presentation summarizing what they have done to implement the commitment plan.

- The commitments are in **2 areas** – one when come back to campus (**traditional**) and one for now while we are in an online environment (**virtual**).

Traditional	Virtual
10ft rule – Ensuring that any students within 10 feet are acknowledged by staff members.	Obtain student contact information when on the phone or through email. This will be useful if there is a disconnection or provide follow – up services.
Name Tags – all employees should consider wearing name tags simply to exemplify that they are staff.	Name Tags and Virtual Backgrounds – this will ensure the student knows what zoom chat room they are in and who they are speaking with.
Become well acquainted with all departments on campus – the more knowledgeable we are about our services, the better we can serve our students.	Become well acquainted with all departments on campus – the more knowledgeable we are about our services, the better we can serve our students.
