

## Results Explorer

The **Results Explorer** dashboard allows users to explore the results for a single assessment over time, by percent or count, and in comparison, with one or more of the SLOs and/or criteria assessed.

To review the results of an assessment in the Library, go to the **SLOs & Assessments** section and the **Assessments** tab. Use the SLO filters to find the assessment.

To review the results of an assessment during the scoring process, select the **Actions** menu in the right corner column and choose **Results Explorer**.

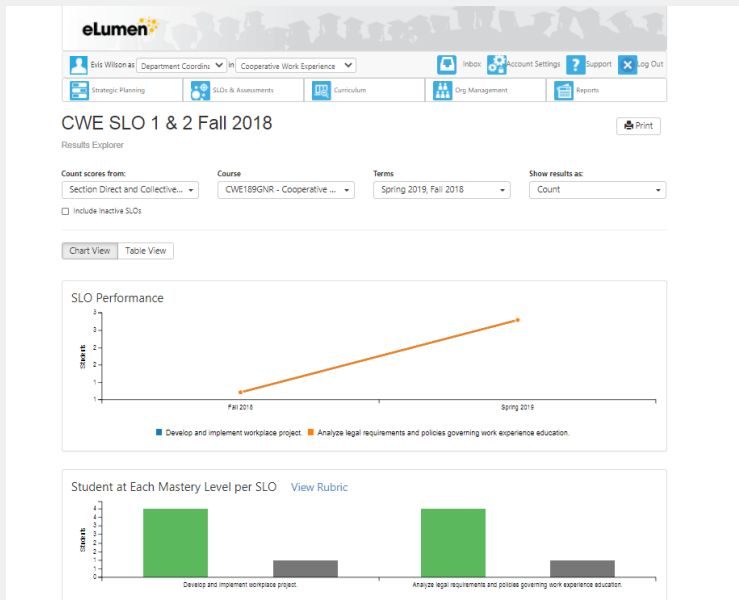

The screenshot shows the SLOs & Assessments dashboard. The 'Assessments' tab is highlighted. Below the navigation bar, there are buttons for 'Add Assessment' and 'Add DLA'. A table titled 'Assessment Library' is displayed with the following columns: Assessment Name, Assessment Description, Type, Planned Terms, and Actions. The first row of the table is highlighted, and a red arrow points to the 'Actions' icon in that row.
