Feel it wasn't worth it to take a non credit course since I'm just taking English for my general eds	
I did not for now but am considering taking in the future to better my skills.	
I don't see a reason doing another class when I can just go to the TLC	
I forgot to enroll in it.	
I have not decided if I should take a Noncredit English support course.	
I missed the enrollment date	
I prefer to work on the main courses and not stray away and work on classes that will not add to my credits	
I want classes with credits	
I was unable to.	
I wasn't able to find that specific non-credit class.	
It was my counselor	
It was too late for me to join.	
Just decided not too and to practice on my own with all of the writing skill that I end up learning throughout the class.	
[Professor] referred me based on an assignment designed to find out where we were as a class in terms of English. I feel as though I did not display my full writing skills in the assignment so I felt like the evaluation was, although correct, not made with my full potential at hand.	
started the class too late	
to lazy	
Waste of my time
